ED 502 Health Education Across the Curriculum

Subject area(s): Education, Other

Course level: Graduate

Course description: Designed to cover the new California state framework for health education. The course provides an integrated curricula approach to health by infusing the components of nutrition, sexually-transmitted diseases, and substance abuse (including alcohol, drugs, tobacco, and narcotics) into the general curriculum. Emphasis is placed on promoting an overall healthy life style that encourages life-long practices in students. This course satisfies the CTC requirements for a clear credential. Does not grant graduate credit and cannot be used as an elective in a graduate program.

Credits earned: 5 credits

Delivery method(s): Other

Course includes: No data given

Prerequisites: No data given

Costs: \$925

Tuition rates can vary among degree programs at the same school.

Please verify current rates with each institution.
